

## Bubble Halloween Earring

Project E699

Designer: Julie Bean

Happy Halloween! These pretty earrings inspire smiles and good times; they are both fun and lighthearted. Very lightweight, these black and orange themed earrings are easy to wear and easy to make.

SKU: XTL-5600

Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

SKU: XTL-5511

Beadsmith Jewelry Fine Round Nose Micro Pliers

SKU: XTL-5514

### Instructions:

Don't forget to double the instructions to make your matched set!

1. Start by punching a hole up near the edge of your 16mm orange Lillypilly circle stamping with bubble pattern.
2. Please look at the photo on the placement of the circle stampings. Place a small dab (do not use too much) of E6000 glue on the bottom backside (blank) edge of your 19mm black Lillypilly circle stamping with bubble pattern. Overlay this edge on top of your 25mm orange Lillypilly circle stamping with bubble pattern. Press into place and let dry. Next place a small dab of E6000 glue on the bottom backside edge of your 16mm orange Lillypilly circle stamping with bubble pattern (opposite edge from where your hole is punched) and overlay this edge on top of your 19mm black Lillypilly circle stamping with bubble pattern. Press into place and let dry.
3. Place 1 Czech glass druk 4mm round jet black bead onto your black finish niobium earring (unfinished) hook. Make a loop at the base of the hook, finishing the earring hook.
4. Open the loop at the base of the earring hook (like you would open a jump ring) and link it to the hole you punched in the smallest round. Close the loop.
5. Happy Halloween!

### Variations

Make these with different patterns of Lillypilly stampings.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
