Flatback Rhinestones

Instructions

1. Before you begin, please watch these two videos: How to Use Crystal Clay and How to Use Beadsmith's Magical Pick Up Tool.
2. Following what you learned in the video, put on your gloves and make a small gum ball sized piece of white Crystal Clay.
3. Carefully embed the Crystal Clay into your silver plated cross bezel pendant, making sure to keep the clay in the bezel as neatly as possible.
4. Next, using your Magical Pick, pick up a Preciosa Czech crystal chaton and place it into the clay, pointy side down. You can begin at the top corner and work your way down, adding rows of chatons as you go. I placed 3 chatons across the top, 9 chatons across the center and 10 chatons going down.
5. Once all your chatons are in place, open the clasp on your finished silver plated chain and slide it through the loop on the top of your cross bezel pendant and close.

6. Let your Crystal Clay cure over night and enjoy!
