

# Clean-In-Place System

- ❑ 5 wash cycles ensure thorough cleaning every time
- ❑ Compact design for tight spaces
- ❑ Secure stainless frame keeps electrical components free from contaminants
- ❑ Peristaltic pumps for detergent and acid supplies
- ❑ 50mm valve for quick drainage between cycles
- ❑ Alarm in case of malfunction

Cleaning your transport tank has never been easier. This clean-in-place system connects seamlessly and is controlled by a simple dial cycle selection. Fully automated rinse and wash cycles ensure complete cleaning every time.
