

Milkplan Transport Tank

- ❑ Insulated, double jacket
- ❑ Maintains temperature for 8-12 hours
- ❑ Fits most pickup beds
- ❑ Legs for mounting to truck or trailer
- ❑ CIP compatible
- ❑ Now with covers over valve and manhole!

Get your milk to its destination in style. The Milkplan Transport Tank is not only beautifully constructed, but is so well insulated that your milk will stay cool for hours. It also conveniently fits in the back of your pickup!

New Feature: Covers over valve & manhole!

Now with stainless steel hinged covers over the valve and manhole to give you the extra layer of insurance that your product will be kept free from contamination. We promise your inspector will be happy to see them.
