

### FEATURES

- Easy connection
- Ergonomically designed for comfortable handling
- Suspension possible by both the built-in hook and the handle
- The normal grip is adjusted to fit the hand during normal usage
- Extremely durable acetal plastic that also isolates against cold media
- Infinitely variable airflow with high volume flow for efficient cleaning

### SPECIFICATIONS

Airflow at inlet pressure of 6 bar (87 psi)	500 l/m (18 CFM)
Max working pressure	Standard blow guns: 16 bar (232 psi) 8 bar (116 psi) blow gun with regulator
Temperature range	-20°C to +60°C (-4°F to +140°F)

### APPLICABLE SAFETY STANDARDS

The products with the "OK" symbol are compliant with the OSHA directive STD1-13.1 (1910-242(b)). When dead ending occurs, static pressure at the main orifice shall not exceed 30 psi (2 bar).

The products with the "EAR" symbol are compliant with the International Standard ISO 4414 – Pneumatic Fluid Power and OSHA 1910.95 – Occupational Noise Exposure. These products have a sound level below 85 db(A) and meet the EU Machine Directive §1.5.8. concerning noise reduction demands.

## DESCRIPTION

CEJN's new MultiFLOW blowgun effectively cleans surfaces with air or water with unparalleled blowing force. Precise flow is achieved by adjustable flow settings. Nozzle adjusts from narrow jet to wide beam. The MultiFLOW meets and exceeds OSHA safety standards when dead-ended.

## FEATURES / BENEFITS

- Unmatched blowing force
- Adjustable flow control
- Adjustable beam

## SPECIFICATIONS

Air flow	200 – 1200 l/min (7 – 42 CFM)
Fluid flow	5 – 25 l/min (1.1 – 5.5 GPM UK)
Air sound level	79 – 101 dBA
Max working pressure	16 bar (232 psi)
Min burst pressure	64 bar (928 psi)
Temperature range 16 bar	-20°C to +60°C (-4°F to +140°F)
Temperature range 10 bar	-20°C to +80°C (-4°F to +176°F)
Media	Air and non-explosive water based liquids

## MATERIALS

Body	POM, TPE, aluminium
Seal	NBR (nitrile)

## APPLICABLE SAFETY STANDARDS

The products with the "OK" symbol are compliant with the OSHA directive STD1-13.1 (1910-242(b)). When dead ending occurs, static pressure at the main orifice shall not exceed 30 psi (2 bar).

The products with the "EAR" symbol are compliant with the International Standard ISO 4414 – Pneumatic Fluid Power and OSHA 1910.95 – Occupational Noise Exposure. These products have a sound level below 85 db(A) and meet the EU Machine Directive §1.5.8. concerning noise reduction demands.

## DESCRIPTION

The Typhoon is Coilhose's most powerful standard blow gun, delivering up to 34 CFM (2500 series), 51 CFM (3800 series) and over three pounds of thrust at 125 psi. The Typhoon is ideal for heavy duty clean-up and blow-off, and its lightweight and sleek design make this gun a favourite.

## FEATURES / BENEFITS

- Delivers up to 34 CFM at 125 psi
- Lightweight and ergonomic
- Variable flow trigger for control
- Maximum flow for easy clean-up and blow-off
- Integral hanging hook
- Wide variety of tips and extensions available

SPECIFICATIONS	2500 Series	3800 Series
Sound level @ 125 psi	85 Db	80 Db
Flow rate @ 125 psi	34 CFM	51 CFM
Thrust	2.1 lbs	3.1 lbs

## APPLICABLE SAFETY STANDARDS

The products with the "OK" symbol are compliant with the OSHA directive STD1-13.1 (1910-242(b)). When dead ending occurs, static pressure at the main orifice shall not exceed 30 psi (2 bar).

The products with the "EAR" symbol are compliant with the OSHA 1910.95 – Occupational Noise Exposure. These products have a sound level below 85 db(A).

## CANNON EXTREME HIGH VOLUME BLOW GUNS

### FEATURES / BENEFITS

Suitable for anyone with an ample air supply (tow-behind compressor for mobile applications or large capacity compressor found in plants) and has a need to move heavy/stubborn debris. Also suitable for drying or cleaning several small orifices or indentations rapidly. Geared for, but not limited to, indoor use.

Operation/performance: Air consumption equals 120 CFM at 100 psi.

### Materials

Die cast aluminium, machined brass and stainless steel body  
3/4" NPT female thread port  
Wear-points constructed of heat-treated and zinc plated steel tip

### MULTI-JET NOZZLE BLOW GUN

## CEG 1 BLOW GUN RANGE

### DESCRIPTION

The CEG-1 is ergonomically designed to fit the natural contour of the user's hand, maximising comfort even during long term use. This gives the user a wider range of motion to direct the additional CEG-1 working capacity right where it's needed, resulting in increased blow-off efficiency.

### FEATURES / BENEFITS

- The curve of the heavy duty steel lever and soft vinyl grip allows the thumb to rest in a natural position, allowing maximum comfort
- Full-size hanging hook makes the gun easy to store and use
- Unique thermoplastic wrap-around body cover maximises user comfort
- OSHA compliant
- Maximum inlet 150 psi
- Full size hanging hook makes the gun easy to store and use
- Unique thermoplastic, wrap-around body cover maximises user comfort
- OSHA compliant
- Maximum inlet 150 psi

### MATERIALS

- Die cast zinc body
- 1/4" NPT female thread port
- Aluminium with black anodised sleeve tip
- Nickel plated steel lever

### APPLICABLE SAFETY STANDARDS

The products with the "OK" symbol are compliant with the OSHA directive STD1-13.1 (1910-242(b)). When dead ending occurs, static pressure at the main orifice shall not exceed 30 psi (2 bar).

The products with the "EAR" symbol are compliant with the OSHA 1910.95 – Occupational Noise Exposure. These products have a sound level below 85 db(A).

1/8" NPSM

2020

PART NUMBER	DESCRIPTION	PRICE
CO-STT32	Telescoping (8" – 36")	£34.33

**FEATURES / BENEFITS**

- Heavy duty, rubber cover
- Instantly adjustable spray pattern
- Watertight – can be used inside or outside
- Caustic and fat resistant

**SPECIFICATIONS**

Water pressure rating	Up to 215 psi
Temperature rating	Up to 80°C (Up to 175°F)

4050

**LOW PRESSURE WATER GUN SELF CLOSING**

PART NUMBER	DESCRIPTION	PRICE
RWG2	1/2" BSPP	£78.00

**FEATURES / BENEFITS**

- All metal, water hose gun
- Sturdy construction
- Release of handle provides instant shut-off

2700

**RI-JAC METAL WATER HOSE GUN**

PART NUMBER	DESCRIPTION	PRICE
RJET1	Ri-Jac water gun *	£41.40

Part supplied with 3/4" & 1/2" hosetail adaptor

4630

**BLOW GUN WITH SAFETY NOZZLE**

PART NUMBER	DESCRIPTION	PRICE
ABG1-14	1/4" BSP ports	£8.05

**METAL BLOW GUN AND ACCESSORIES**

**FEATURES**

Manufactured from high quality die-cast alloy, giving the tool a long trouble free life.

**KEY PRODUCT BENEFITS**

- Robust and compact design
- Supplied with a conical and safety nozzle
- Display packed for convenience

**PRODUCT SAFETY INFORMATION**

Outlet pressure on blowguns should not exceed 2 bar/28lbf/in<sup>2</sup>. It is therefore recommended that an in-line regulator is fitted to your air supply to ensure this.

8250

**FEMALE BLOW GUN WITH CONICAL & SAFETY NOZZLE**

PART NUMBER	DESCRIPTION	PRICE
CO-BG605	Metal Blow Gun	£6.37

**FEATURES**

PCL's threaded (1/8" inlet) easy-to-fit nozzles are interchangeable, catering for all blow gun applications.

8250

**SAFETY NOZZLE**

PART NUMBER	DESCRIPTION	PRICE
CBGN461	Safety nozzle	£2.97

**AIR CURTAIN**

**FEATURES AND BENEFITS**

- 25:1 air amplification
- Up to 30 dBA noise reduction
- Health and safety compliant
- Low maintenance – no moving parts
- Ease of mounting – flange running the entire length

**APPLICATIONS**

- Product drying
- Product cooling
- Swarf contamination removal
- Air saving - reduction of energy bills
- Compressor demand reduction
- Noise reduction

**AIR CURTAIN ALUMINIUM**

**FEATURES AND BENEFITS**

- 4 to 25:1 air amplification – can cut compressed air demand by 70%
- Up to 30 dBA noise reduction
- Health and safety compliant
- Low maintenance – no moving parts
- Application specific set-up (no shims) – fully adjustable

**APPLICATIONS**

- Product redirection
- Product drying
- Air saving - reduction of energy bills
- Compressor demand reduction
- Noise reduction
- Product cooling
- Blowing and vacuum applications

**SAFETY BLOW GUN**

**DESCRIPTION**

Meech Energy Saving Nozzles and Blow guns direct compressed air over a curved surface on the outside of the nozzle. This action entrains the ambient air and amplifies the total air flow. Meech Nozzles and Blow guns can save up to 70% of compressed air demand, whilst significantly reducing noise levels. They have hundreds of applications and will significantly reduce running costs.

**FEATURES AND BENEFITS**

- 25:1 air amplification
- Up to 30 dBA noise reduction
- Health and safety compliant
- Low maintenance – no moving parts
- Application specific set-up
- Operator comfort – ergonomic lightweight aluminium handle

**APPLICATIONS**

- Air saving - reduction of energy bills
- Compressor demand reduction
- Swarf removal
- Any blow gun task

**SPECIFICATIONS**

**COLDSTREAM AIR GUN**

**DESCRIPTION**

Coldstream Air Guns from Meech use compressed air to provide a cold air source commonly used for spot cooling. Available in adjustable and non-adjustable versions with a choice of knuckle trunking. The Coldstream Air Gun is capable of achieving temperatures that are over 40°C below the compressed air temperature.

**FEATURES AND BENEFITS**

- Available in two sizes
- Up to 30 dBA noise reduction
- Health and safety compliant
- Low maintenance – no moving parts
- Application specific set-up – supplied with 4 generators
- Easy to install – secure in place with a strong magnet

**APPLICATIONS**

- Ultrasonic weld cooling
- Spot cooling
- Component cooling
- Tool cooling

5700

**ADJUSTABLE**

PART NUMBER	SIZE	OUTLET	PRICE
AIRM-A60015A	280 mm x 54 mm	Single	£417.60

AIRM-A60008	229 mm x 45 mm	Single	£414.14

**NEEDLE COOLER**

**DESCRIPTION**

Needle Coolers from Meech use compressed air to provide a cold air source. Combining a small vortex tube, hot-end silencer and flexible knuckle trunking that direct the cold air flow to the target. Typically used to cool sewing needles, a magnetic mounting bracket means the cooler can be fixed to virtually any metal surface. The Needle Cooler is capable of providing a cold air source up to 50°C below the compressed air temperature.

**FEATURES AND BENEFITS**

- Stainless steel construction – hard wearing
- Low maintenance – no moving parts
- Suitable for harsh environments
- Easy direction of cold airflow
- Quick and easy mounting – magnetic base

5700

**NEEDLE COOLER**

PART NUMBER	SIZE	OUTLET	PRICE

**CABINET COOLER**

**DESCRIPTION**

Meech Air Technology Stainless Steel Cabinet Cooler Systems provide a cold air source to stop cabinets overheating and prevent ingress of contamination, such as dust or moisture. When compared to fans that are commonly found in cabinets, Meech Cabinet Cooling Systems provide the ideal cooling solution.

**FEATURES AND BENEFITS**

- Alternative to traditional AC units
- Up to 30 dBA noise reduction
- Health and safety compliant
- Low maintenance – no moving parts
- Application specific set-up
- Easy to install
- Prevents dust entering the cabinet

**APPLICATIONS**

- Industrial PC cooling
- CCTV cooling
- Cooling equipment on marine vessels
- Machine panel cooling
- Cooling LCD touch screens

**VORTEX TUBE**

**DESCRIPTION**

Meech Air Technology Stainless Steel Vortex Tubes convert compressed air into two airflows, one extremely cold and the other extremely hot. Vortex tubes have no moving parts and can produce a drop in temperature up to 50°C below the compressed air temperature, whilst hot air can be up to 50°C above compressed air temperature.

**FEATURES AND BENEFITS**

- Cold air to 50°C below compressed air temperature
- Hot air to 50°C above compressed air temperature
- Hard wearing – manufactured from stainless steel
- Maintenance free – no moving parts
- Accurate temperature control

**APPLICATIONS**

- Spot cooling
- Weld cooling
- Plastic slitting
- Product cooling
- Foodstuffs cooling

**EXPERIMENTAL KITS**

**DESCRIPTION**

The Meech Experimental Kit incorporates a Meech Vortex Tube with a Cold End Silencer and a length of flexible knuckle trunking, which can be used to direct the air flow. The Experimental Kit also includes all 8 generators, that allows for the most flexible temperature and air consumption, perfect for applications that require changing cold air temperature.

**FEATURES AND BENEFITS**

- Low maintenance – no moving parts
- Suitable for a range of applications
- No electricity costs
- Available in 2 sizes
- Runs only on compressed air
- Stainless steel construction – hard wearing
- Provided with full range of generators (temperature control)

**EXPERIMENTAL KITS**

**HIGH AND LOW COLD FRACTION**

**FEATURES**

- Greatly reduces the incidence of repetitive strain injuries, such as carpal tunnel syndrome and back stress
- Lightweight and streamlined design
- Two rotation points prevent kinking of the supply hose
- Steel construction for maximum service life
- Rotating joint is supplied with dust cover
- Full 7 mm flow

**APPLICATIONS**

- Assembly operations in the automotive and electronic industries and spray painting
- Mechanical joints for robotics

**SPECIFICATIONS**

Medium	Compressed air
Working temperature	-5°C to +60°C (+23°F to +140°F)

### HIGH QUALITY

CEJN's high quality hose and cable reels contain a CEJN polyurethane hose or rubber cable. The reels are easy to manoeuvre and can be ceiling or wall-mounted and offer full, 300 degree, movement. A robust exterior housing protects the hose or cable and reel mechanism and the feeding action works flawless and tangle free. A stop function can be activated if full continuous feeding is not necessary at the time.

### FEATURES AND BENEFITS

- Slow Retract
- Hose Guide
- Lowest Pressure Drop in the Market
- Quicker Hose Change
- New Hose Stopper

## ELECTRIC REELS – PREMIUM SERIES

### FEATURES / BENEFITS

- IP 42 environment tested
- Red LED power indicator
- Rubber / neoprene cable H07RN-F – comfortable handling even at very low temperatures
- True rollable working length – store the cable completely back to the reel
- Revolving hinge with 200° rotation – easy to reach your application accurately

SPECIFICATIONS	360 Series	362 Series
Hose	Rubber	Rubber
Feeder cable length	1 m (3 ft)	1 m (3 ft)
Power capacity	2300W / 10A	3000W / 13A
Temperature range	-20°C to +60°C	-20°C to +60°C

### ELECTRICAL CABLE REELS SMALL - 360 SERIES

## PRO-SERIES AIR / WATER HOSE

### FEATURES / BENEFITS

- High impact, UV stabilised polypropylene construction
- All units come complete with fitted main hose assembly and 2 metre connecting / feedhose
- Fixed or 180° pivoting wall bracket
- All units, as standard, include the Helix Ultra Coil® technology self layering hose system
- Lightweight material construction
- Suitable for both compressed air and water
- Fold flat carry handle
- Hose guard supplied
- Swivel outlet fitting on all compressed air units
- Solid brass main swivel shaft and hose fittings
- 2 Year manufacturer's warranty (excludes hose assemblies and seals)

## SLOW RETRACTION SAFETY HOSE REELS

### FEATURES / BENEFITS

- Reduced recoil speed can be adjusted on site to suit the operator / environment
- Constructed in heavy duty, powder coated, mild steel or stainless steel
- Twin pedestal design
- Full width, roller guide assembly
- Optional pivoting wall bracket
- 90°C working temperature
- Durable nylon bearing assemblies
- 400 & 600 bar upgrades available
- Supplied as bare reel (hose kits at extra cost)
- Ribbed side arms for extra rigidity
- Fully ported flow path for maximum product delivery
- Externally mounted swivel assembly for easy service and maintenance
- Long term spare parts availability
- Latching of hose assembly at any desired length
- 12 month manufacturer's warranty

**1 YEAR**  
MANUFACTURER'S  
WARRANTY

## GEN III SERIES

### FEATURES / BENEFITS

- Durable yet economical
- Lightweight and easy to operate
- Manufactured from tough, corrosion proof, composite materials
- Heavy duty swivel reduces possible cracking in freezing conditions
- Multi position locking mechanism which, when released, provides a complete, positive retraction every time
- Hotwash reels for use in food preparation and food processing areas
- Garden hose complete with 2 m side connection hose and inlet fitting
- Barrier reels are the ideal way to quickly set up personnel safety barriers

RETRACTA SERIES

REDASHE WARRANTY DETAILS

All products supplied by Redashe are warranted from one to 10 years, depending on manufacturer. Hose supplied by Redashe carries the warranty as listed by the manufacturer. A flexible connection must be used between the hose reel and supply. Use of a solid connection will void the swivel warranty. Redashe meets the requirements of BS EN ISO 9001:2008. Certification of the system was obtained by BSI Quality Assurance on 9th December 1991, number 4601QM8001.

All warranties cover reel only and exclude any hose supplied.

REINFORCED PVC HOSE

FEATURES / BENEFITS

- Tough, corrosion free polypropylene construction
- Supplied with fitted hose for specified application
- Choice of lockable mounting brackets
- Virtually maintenance free
- Lightweight – average just 10 kg, easy to install
- Full automatic hose rewind for neat and tidy storage
- Low effort, easy-to-use rewind tension
