MENS SIZE GUIDE

HOW TO MEASURE
If you are on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit.

Chest - Measure all the way round - across fullest part of the chest. Try to keep your arms straight.

Waist - Measure all the way round - taking the tape around the natural waistline.

Inside Leg - Unlike the other measurements, which are body measurements, the inside leg measurement corresponds to the length on the fabric. Measure from the crotch to where your trousers normally wear on the shoe. This is the short measurement, not body.
