

# Verotti Glass Protection

## Makes Cleaning a Breeze

**Verotti Glass Protection is an invisible coating applied to all glass surfaces.**

Similar to a non-stick fry pan, glass needs to be cleaned each week using only water and a mild detergent or with a damp microfibre cloth to remove any soap scum and grime from the glass. Be careful not to use any rough, gritty, highly acidic, alkaline or abrasive cleaners such as Comet, Ajax or cerium oxide as they may damage the protective coating. No longer is scrubbing with harsh toxic cleaners needed. The superior protection also helps prevent the build-up of mould and harmful bacteria, promoting a germ free environment.

With Verotti Glass Protection

## Features & Benefits

**Ultimate Protection** – highly durable against soap scum, dirt and limescale build up.

**Easy to Clean** – no more tiresome scrubbing. Just a wipe over with a damp cloth is all you need.

**Reduce Cleaning Time** – shower screen will stay brilliant requiring up to 90% less cleaning.

**Environmentally Friendly** – no need for harsh toxic cleaning chemicals or excess water.

**10 Year Warranty** – extensive testing has Verotti Glass Protection to last beyond 10 years, enabling a genuine 10-year warranty on all new glass surfaces.

## General Care & Maintenance

### How to Care for Your Shower Screen and/or Bath Screen

**Shower / Bath Screen should be wiped down** after every use. Squeegee glass & dry hardware & aluminium frame to minimise water spots and mineral deposits. This is especially important in areas where the water has a high mineral content.

**Avoid Abrasive Materials**, use only a damp sponge or soft cloth. never use an abrasive material such as a bristle brush or scouring pad to clean metal or glass surfaces.

**Regular Cleaning** should be undertaken to maintain new condition. Use only ph neutral warm mild soapy water to wash down complete screen. Wipe all surfaces clean using a damp soft, sponge or equivalent.

**Rinse all Surfaces** thoroughly with clean water ensuring all cleaning solution has been removed and no residue remains. Remember to wipe down and dry your shower screen.

**Maintain a dry** ventilated bathroom at all times.

**Never use** cleaners containing abrasives, ammonia bleach, acids, waxes, alcohol or solvents as they may damage the finish. Use of harsh cleaning agents may void warranty obligations.

**By following** the information in this guide you will derive many years of enjoyment from your Verotti Shower / Bath Screen products.
