

Click & Grow is one of the leading producers of smart gardens in the market. We have created a technology that enables everyone to grow fresh, GMO-free and pesticide-free food from their home or office without the need for regular watering and fertilizing.

Click & Grow was founded in 2009 and has shipped its products to hundreds of thousands of customers worldwide. The company is headquartered in Tartu, Estonia. It also has offices in Tallinn and San Francisco.

Click & Grow is here to cultivate our bond with nature, by transforming how we build our gardens, sustain our bodies, and feed our souls. We combine the power of technology with the magic of nature.

Join us and help make it happen!

The Role:

We are hiring a **PHP developer** for our Tartu office who will be responsible for developing and maintaining Click & Grow's applications' server-side code.

Responsibilities:

- Writing high quality, well designed, testable and secure server-side code
- Developing the server side of Click & Grow web applications, including the Click & Grow PWA, e-commerce systems, 3rd party service integrations
- Maintaining existing Click & Grow server-side code
- Maintaining and expanding the Click & Grow web infrastructure (standard LAMP stack)

Requirements:

- Fluent in PHP
- Fluent in SQL
- Good understanding of RESTFUL web services and APIs
- Good understanding of AJAX
- Familiar with LAMP stack administration and setup
- Fluent written and spoken English

Comes in handy:

- Experience with web-app development
- Good JavaScript skills
- Familiarity with database design
- Familiarity with Java, Ruby or Python
- Experience with PWA development

We Offer:

- Flexible working time and opportunities for remote working
- Competitive salary
- The unique experience of being part of a market leading innovative company revolutionizing how fresh food is grown
- A chance to work side-by-side with the key management of the company
- Friendly and supportive, high pace and low bureaucracy work environment
- International, young and enthusiastic team
- Company benefits: sports compensation, opportunity to participate in conferences for professional development
- Fun team gatherings, comfortable and green office in the centre of Tartu
