

Valentine's Keepsake

by Kathy Schmitz

1. Cut out the hand and heart
2. Fold the hand and heart in half (match up the bottom sides of the hand and through the center of the heart from top to bottom).
3. Place the folded heart on the hand matching up the folds with the heart pointing **down** matching up the rounded end of the heart with the dots on the hand.
4. Using a sharp pair of scissors cut the three slots going through both the heart and the hand.
5. Place the heart, pointing up, on top of the hand.
6. Slip the slits cut into the hand through the slits cut into the heart.
7. Carefully pull the tips of the cut slits of the heart up and over to the top. *Using a needle or something skinny to reach under there is helpful.
