

SNOWDRIFT

by Kathy Schmitz

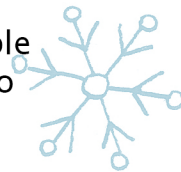

FINISHING TOUCHES

Your Snowdrift Table Runner is almost complete!

- The next step is to carefully trim away the excess wool leaving about 3/8" extra past the edge of the snowflakes. This edge will be covered with the chenille yarn trim.
- Use the Sulky 12wt thread to whip stitch the trim to the edge of the table runner. Start at the center of one of the big, side snowflakes leaving a 1" tail. Wrap the thread over the trim as you whip stitch through the wool. The trim is fluffy enough to hide the stitches. When you reach the beginning, overlap the two ends about 1/2" and cut away the extra trim. Whip stitch the ends in place.

Congratulations! Take a pretty picture of your Snowdrift Table Runner on your table and post it on IG & FB #Snowdriftable runner and tag me @KathySchmitzStitches so I can see your accomplishments!

POST A PICTURE OF YOUR FINISHED TABLE RUNNER!

Tag Kathy Schmitz so I can see your beautiful handywork!
