**NEST STUDIO INTRODUCES LUXURY HARDWARE COLLECTION FOR THE HOME**

MILLBURN, NEW JERSEY. (September 20, 2012) – Nest Studio, the design firm headed by designer and blogger Jessica Ahnert Davis introduces two signature lines of finely crafted decorative hardware for the home: Facet and Transparency.

Taking cues from classical jewelry design, the Facet series includes a multi-sided knob, hefty bar handle, and octagonal ring pull. The pieces reflect both the detail and beauty of fine gemstones, as well as the clean lines and simplicity of art deco and industrial style, making them ideal for both classic and contemporary spaces. The Transparency series includes a stepped handle, square knob, and hinged pull of acrylic and metal. Juxtaposing the solidity of brass with the lightness of acrylic, these pieces conjure up the refined luxury of art moderne.

## ABOUT

Jessica Ahnert Davis is the founder of Nest Studio LLC, a lifestyle firm specializing in boutique hardware and interior design. Jess is also the voice behind the Nest Studio blog, covering fashion, food, interiors, and stylish living with young children.

Nest Studio officially launched in 2012 with the introduction of the Facet Collection. Jess designed the Collection after a frustrating search for beautiful hardware inspired her to tailor-make decorative pieces to fit her aesthetic. The business has since grown by leaps and bounds, spurred by the release of the Transparency Series, fabricated from a sophisticated mix of brass and acrylic, and most recently the Classic Series. With new items in the works that involve mixed materials and high-end finishes, Nest is at the forefront of decorative hardware innovation.

Entirely woman-owned and operated by a talented team of working mothers, Nest Studio is socially-conscious and proud to rely on US based manufacturers and suppliers to help create its unique and inspiring hardware for high-end interiors.
