ABOUT

Jessica Ahnert Davis is the founder of Nest Studio LLC, a lifestyle firm specializing in boutique hardware and interior design. Jess is also the voice behind the Nest Studio blog, covering fashion, food, interiors, and stylish living with young children.

Nest Studio officially launched in 2012 with the introduction of the Facet Collection. Jess designed the Collection after a frustrating search for beautiful hardware inspired her to tailor-make decorative pieces to fit her aesthetic. The business has since grown by leaps and bounds, spurred by the release of the Transparency Series, fabricated from a sophisticated mix of brass and acrylic, and most recently the Classic Series. With new items in the works that involve mixed materials and high-end finishes, Nest is at the forefront of decorative hardware innovation.

Entirely woman-owned and operated by a talented team of working mothers, Nest Studio is socially-conscious and proud to rely on US based manufacturers and suppliers to help create its unique and inspiring hardware for high-end interiors.
