

ISPLR

Inflatable Single Place Life Raft

Scan this code for more details about the ISPLR

Advanced military design and mission-proven durability to a single place life raft available for mariners and pilots who are serious about their personal lifesaving equipment.

SWITLIK ISPLR: Military design, for serious pilots

The ISPLR is our single person life raft of choice for solo flights over water. Lightweight and compact, the ISPLR is easily transportable between aircraft. Swim right into the ISPLR and with twin zippers, located on either side, partially or fully close the canopy, keeping the elements out while providing great ventilation.

Fully reversible

The unique U-shaped design allows the raft to be fully reversible, allowing quick, easy entry from the water – whichever side is up when it automatically inflates. The ISPLR's low slung floor design allows seating at a slight recline lowering the center of gravity well below the waterline, increasing stability in rough waters.

Standard Features

- Fully reversible
- Quick and easy boarding
- Low-slung floor design for significantly enhanced seating comfort and stability in water
- Weather-tight canopy protection with viewing window
- Three layer inflation chamber design for redundancy
- Vacuum packaging available for extended TBO
- Optional inflatable floor for enhanced thermal protection
- Stowage pockets for personal safety items
- Compact bailer and sea anchor included
- Easily transportable between aircraft. Soft valise has removable cylinders ideal for ferry pilots

Specifications

Part number: ISPLR-1002-series

Buoyancy: Over 180 lbs.

Inflation System: 2 each 75g CO2 cylinders

Buoyancy Tube Fabric: 200 Denier urethane nylon

Approval: TSO-C72c

Loose Pack

- 7" x 12" L
- Weighs 5.4 lbs. (2.4 kg)
- Loose pack
- Cylinders accessible for removal
- 1 year TBO

Sealed Pack

- 4 1/4" H x 14" L x 6 1/4" W
- Weighs 5.4 lbs. (2.4 kg)
- Hermetically sealed
- Cylinders not accessible for removal
- 5 year TBO
