

LPU-10/P

Underarm Life Preserver

NEW USAF approved design which modernizes and improves the performance of legacy USAF Underarm Life Preserver.

The LPU-10/P is designed to be worn under parachute and restraint harnesses without causing interference. It is approved for use during flights over water and near water obstacles.

Scan this code for more details about the LPU-10/P.

LPU-10/P: Underarm Life Preserver

The new and improved SWITLIK design retains its original form, fit and function of the legacy LPU-10/P design while improving performance and modernizing all materials and construction

Features:

- X-back design with adjustable straps.
- Break-away zipper design.
- Beaded handle inflation assemblies.
- Dual RF sealed bladders.
- Hi-visibility yellow flotation bladders.
- Increased buoyancy over legacy LPU-10/P.
- Mesh inner panels and back panel for reduced thermal burden.
- Cobra Frame Adjuster® for each shoulder strap adjustment.
- Oral inflation tubes for secondary inflation.
