SURVIVAL PRODUCTS

Man Overboard & Rescue Modules

Professional Survival Equipment
for serious mariners

Family owned and American Made since 1920

www.**SWITLIK**.com

MOM 8-A

World Sailing Safety Standard.

The MOM 8-A is the fastest way to get all the necessary man overboard safety equipment to a victim in the water. The completely self-contained system is designed to be rail mounted to the stern of a boat providing instant deployment into the water near the victim. When inflated, the underarm flotation device will keep the victim afloat, while the ballasted locator pylon has a 6-foot waterline height and water activated light for better visibility. Also included is a drogue to keep the victim from drifting far from where they fell overboard.

Certifications

- World Sailing Offshore Racing Special Regulation 4.22.1 for Man Overboard Lifebuoys
- Pacific International Yachting Organization Special Regulations as Life Saving Equipment in Section 5.6

Canister

Dimensions: 14.5"H x 11"L x 4.25"W

Weight: 18.75 lbs. packed

Material: Molded Polyethylene

Case Color: White

Rail-mounting Hardware: Clamps (7/8", 1", 1 1/3", 1 1/4") and all necessary stainless nuts, bolts and fastpins

Optional Rail Extensions: P/N 840022 (necessary on boats with rails with more than 11" of separation, the extension rails allow for up to 18" of separation between two parallel rails)

Underarm Flotation Device

Material: Double Coated Polyurethane Nylon (210D)

Buoyancy: 35 lbs.

Inflated Color: High Visibility Yellow

Inflation: 33g - CO2 cylinder

Lifting Straps: 1" wide nylon webbing with 2 S.S D-rings

Tethers: 3/8" Floating Line

Sea Anchor: 16" diameter

Pylon

Waterline Height: 6 ft.

Material: 200D urethane-coated nylon

Color: Yellow

Reflective Panels: 72 sq. inches

Ballast: 8 lbs.

Auto Light: 8 hr. flashing

Servicing

- The MOM 8-A can be re-packed and re-used.*
 - The MOM 8-A has a 2-year service interval.*
- *Service must be performed at a SWITLIK Authorized MOM Service Center.

MOM 8-S

Safety in a smaller, lighter pack

The MOM 8-S is designed to provide the market with a lighter, smaller version of the MOM 8-A. SWITLIK's underarm flotation device keeps the person-in-water's head and shoulders out of the water, allowing for the victim to assist in their own rescue. The 6 ft. pylon and water activated light allow for better visibility and the weighted sea anchor reduces downwind drift keeping the victim in the same position as when they went overboard. The MOM 8-S is self service.

Certifications

- World Sailing Offshore Racing Special Regulation 4.22.1 for Man Overboard Lifebuoys
- Pacific International Yachting Organization Special Regulations as Life Saving Equipment in Section 5.6

Valise

Dimensions: 11.5"H x 6.5"L x 5.25"W

Weight: 15.3 lbs. packed

Material: Heavy Duty Herculite® 80 Laminated Nylon (400D; UV, Mildew, & Abrasion resistant)

Case Color: White

Rail-mounting: Lacing to rail

Underarm Flotation Device

Material: Double Coated Polyurethane Nylon (210D)

Buoyancy: 35 lbs.

Inflated Color: High Visibility Yellow

Inflation: 33g - CO2 cylinder

Lifting Straps: 1" wide tubular nylon webbing with 2 circular (1,600 lbs.+ break strength)

Tethers: 3/8" Floating line

Sea Anchor: 16" diameter

Pylon

Waterline Height: 6 ft.

Material: 200D urethane-coated nylon

Color: Yellow

Reflective Panels: 72 sq. inches

Ballast: 8 lbs.

Auto Light: 8 hr. flashing

Servicing

- The MOM 8-S can be re-packed and re-used. Rearm kits are sold with service stickers for the following year to provide compliance for racing
- The MOM 8-S has a 1-year service interval.
- Self-service

CORD

Stay connected with the person-in-water

The CORD is an inflatable life sling, designed for man overboard emergencies for both leisure boaters and first responders. The CORD consists of SWITLIK's new Underarm Flotation Device (UFD) and 150 ft. of 1/4" high visibility multi-filament polypropylene floating yellow line with over 1,600 lbs. break strength. The CORD is designed to aid in the rescue of a man overboard. The superior lifting capability of the unit allows you to easily pull the PIW safely back onto your vessel.

Valise

Dimensions: 11.5"H x 6.5"L x 5.25"W

Weight: 6 lbs. packed

Material: Heavy Duty Herculite® 80 Laminated Nylon (400D; UV, Mildew, & Abrasion resistant)

Case Color: White

Rail-mounting: Lacing to rail

Underarm Flotation Device

Material: Double Coated Polyurethane Nylon (210D)

Buoyancy: 35 lbs.

Inflation: 33g - CO2 cylinder

Lifting Straps: 1" wide tubular nylon webbing with 2 circular (1,600 lbs. break strength)

Tethers: 150 ft. of 1/4" high visibility multi-filament polypropylene floating line (yellow) with average break strength of 1,600 lbs.

Attachment: Stainless steel snap shackle

Servicing

- The CORD can be re-packed and re-used. Rearm kits are sold with service stickers for the following year to provide compliance for racing
- The CORD has a 1-year service interval.
- Self-service.

Choosing the Correct Man Overboard Module for your Application

Attributes	CORD	MOM 8-S	MOM 8-A
Provides 35 pounds of buoyancy	✓	✓	✓
Strong enough to lift a victim back on-board	✓	✓	✓
Designed for multiple deployments	✓	✓	✓
Packed in soft valise	✓	✓	
Packed in hard container			✓
Requires three hard points on rail for mounting			✓
Mountable to a cable lifeline	✓	✓	
Includes pylon and drogue		✓	✓
Floats free from vessel when deployed (no tether)		✓	✓
Stays tethered to the vessel when deployed	✓		
Towable for "circling" approach to MOB recovery	✓		
Stays floating near the victim while vessel is underway		✓	✓
Meets World Sailing Offshore Racing Special Regulation 4.22.1 for Man Overboard Lifebuoys		✓	✓
Meets Pacific International Yachting Organization Special Regulations as Life Saving Equipment in Section 5.6		✓	✓
User serviceable	✓	✓	
Service interval	1-year	1-year	2-year

Manufacturing more than the world's best man overboard modules.

Ask your SWITLIK dealer for more information about the other great products in our marine line

SWITLIK Life Rafts provide emergency flotation and protection from the elements in the event that you need to abandon ship. Offering options to meet your specific boating needs:

Coastal

Designed with the coastal cruiser, mid-shore sport fisherman, and day-sailor in mind, the Coastal Passage Raft is designed to be a high quality, light weight, best in class coastal life raft, with a convertible canopy system, large, fast deploying water ballast bags and heat sealed construction.

Offshore

Travel further and stay safer with the unrivaled features of the Offshore Passage Raft. With plenty of freeboard for high seas and advanced features such as our convertible canopy system, heat sealed construction, and four rigid boarding steps, the OPR is the "real deal" in offshore life rafts.

Built from the same DNA as our Offshore Passage Raft, the OPR-HD is built to stringent ISO-9650 (Type I) standards.

Transoceanic

World-class safety for those who venture beyond the horizon. The SWITLIK SAR-6 is the world's finest blue water offshore life raft.

RACE MARKS

Championship tested, SWITLIK inflatable race marks are constructed using a heavy duty, puncture and abrasion resistant urethane-coated nylon fabric. Available in a 4-ft or 6-ft **Big Ball** and 60-in. **Starting Pin**.
