Attn: Mr. Timothy Hadsall, ACO Manager

Subject: U-Zip-It Anti Exposure Suit, P/N S-3920-(), Minor Change Request

Dear Mr. Hadsall,

The anti-exposure suit drawing S-3920-() has had a minor change to it. Revision E and this letter are being submitted to bring our records up to date.

Revision E dated 9/22, removed four assemblies from the Bill of Materials (BOM). These assemblies (-Y2, -Y3, -Y5 and -Y6) included a zip-in liner that will no longer be produced. The associated items for these liners were also removed from the BOM.

Two sub-assemblies were added to the BOM. These sub-assemblies (-1Y1 and -1Y4) are the basic pilot and passenger suits, without hood and glove kits or liners. All associated items for these sub-assemblies (items 1 through 9, and items 14 through 17) were removed from the remaining assemblies, -Y1, -Y4, -Y7 and -Y8. These assemblies now include one of the two suit sub-assemblies (items 20 and 21).

Switlik has reviewed this change, and all applicable data, and consider this a minor change per 14 CFR Part 21, Subpart O, §21.619 and as defined in our quality control manual.

We hereby certify that this anti-exposure suit meets or exceeds all the requirements of 14 CFR 21.8(d) and ETSO-2C503, complies with 14 CFR Part 21, Subpart O, and will be manufactured under the strict quality control procedures on file with your Saddle Brook, New Jersey office.

Best Regards,

David Gutierrez
Engineering Manager - Sustaining
