Attn: Mr. Anthony Socias, Manager

Subject: S-51400/51450-( ), Model AV-35D Life Preserver, Minor Change Request

Dear Mr. Socias,

The life preserver drawing S-51400/51450-( ) has had two minor changes to it. Revision R, revision S and this letter are being submitted to bring our records up to date.

Revision R dated 2/11, provides additional illustrations for an alternate tether assembly and an alternate CO<sub>2</sub> cylinder cover assembly, along with notes addressing the original and alternate assemblies.

Revision S dated 6/11, corrected the dimensioning of the stitching that secures the optionally-available reflective binding to the edge of the flotation cell. Additionally, the view showing the stitching was corrected to show a single-stitch instead of double-stitching.

These changes should be considered minor as they do not have any effect on form, fit, or function. We hereby certify that this life preserver meets or exceeds all the requirements of TSO C13d, complies with 14 CFR Part 21, Subpart O, and will be manufactured under the strict quality control procedures on file with your Saddle Brook, New Jersey office.

Should you have any questions regarding these changes, please don't hesitate to contact us.

Best Regards,

John Mayer  
Engineer

Enclosure: Revision R & S to S-51400/51450-( )
