Subject: Aeronautical Product Design Approval
Project Number H.11-0036-0004.

Dear Sir,

1. After reviewing the data you submitted to comply with Brazilian requirements set forth in the FAA AC 21-2K, the ANAC grants to Switlik Parachute Co. Inc. this design approval for the Life Preserver Model AV-35, H Style, Part Number S-61800-() and S-61850-(), TSO C13f.

Be advised that any further modification of the current approved design should be submitted to the ANAC after FAA approval.

As a design approval holder, you are required to report to the ANAC any failure, malfunction or defect related to the product identified herein. You must also notify the ANAC when you discontinue the production of this article.

2. Mr. Moraes is the project officer assigned for this program. For additional information on this subject, he may be contacted directly by telephone at 55 (12) 3797-2515, by fax at 55 (12) 3797-2330 or by email jcarlos.moraes@anac.gov.br.

Yours sincerely,
