Attn: Mr. Anthony E. Gallo, ACO Manager

Subject: TSO-C13f Life Preserver, P/N S-71850-( ), Model AV-200 Minor Change Request

Dear Mr. Gallo,

The life preserver drawing S-71850-( ) has had a minor change to it. Revision H and this letter are being submitted to bring our records up to date.

Revision H, dated 10/20, revised -PXXX/-CXXX illustrations and dimensions shown on sheet 2. A new delta note was added for ASSY's -PXXX and -CXXX material specification on sheet 3.

For ASSY's -PXXX and -CXXX, updated illustration of item 41 "elastic" on front view
For ASSY's -PXXX and -CXXX, items 28 "thread" and item 40 "webbing" were changed. The new materials are identical to prior material except for color. Item 28 was orange and now is black. Item 40 was white and now is black. Illustrations and dimensions were added for clarity of assembly. Dimensions necessary were added and stitching found unnecessary removed.

Switlik has reviewed the design change, and all applicable data, and consider this a minor change per 14 CFR Part 21, Subpart O, §21.619 and as defined in our quality control manual. As such, it does not require a substantially complete investigation to determine compliance with TSO-C13f, and its ability to meet the minimum performance standards of Appendix 1, is unaffected.

We hereby certify that this life preserver meets or exceeds all the requirements of TSO C13f, complies with 14 CFR Part 21, Subpart O, and will be manufactured under the strict quality control procedures on file with your Saddle Brook, New Jersey office.

Should you have any questions regarding this application, please don't hesitate to contact us.

Best Regards,

David Gutierrez
Engineering Manager
Enclosure: Revision H to S-71850-( )
