

WARNING

DO NOT CHEW ON YOUR LIP GUARD

Your lip guards protective properties will diminish significantly if it is chewed or not worn properly.

FITTING INSTRUCTIONS:

No fitting/molding required. The guard is ready to use out the box.

USING THE TETHER:

Insert the tether through the front opening of the lip guard using your thumb and index finger.

CLEANING METHODS:

Use a toothbrush and toothpaste to thoroughly scrub and clean your lip guard.

Or, use mild soap and wash mouth guard in cool water.

If you have mouthwash on hand, rinse after every use and let dry before storing.

Make sure to read the following safety instructions

1. This mouth guard can be used with braces.
2. Made of FDA approved silicone.
3. Visually check your mouth guard after every use. Cracks, splits or separations could render your mouth guard useless.
4. Visit the doctor immediately if you experience any unusual irritations after using the mouth guard.
5. This mouth guard does not contain any latex or materials that are currently known to cause allergic reactions.
