The MDF-20U110 is the most versatile Pharmacold freezer model yet. It is equipped with a reversible door which can be mounted on the left or right side. It has also been specifically designed to fit under a counter or in tight spaces.

Unlike other medical freezers its size the air intake and discharge vents are located in the front of the freezer. Giving it the ability to be placed directly against a wall, no need for added space at the back for air flow. The Pharmacold MDF-20U110 is an asset to any medical institution or laboratory.
