

Wood Filler paste

Traditional, fine-grained paste filler

An economic alternative to other paste fillers

As a part of our wood repair product line we also offer a traditional paste filler with a nice, fine-grained texture. Wood Filler is ready-for-use and it is easy to handle and apply. Ten great colors make the paste filler a great match for most wood sorts.

Wood Filler is often used for smaller furniture repairs due to the fine texture. It is also often used for the between grinding of many types of wooden objects.

Wood Filler is suitable for smaller repairs in furniture, stairs, and glulam etc.
