

OSGIKEN

2016+ Mazda MX5 (ND) Differential Case/Cover Modification Reference for OS Giken Super Lock LSD Installation

Modification

1. The 2016+ Mazda MX5 may require shaving the LSD case for proper clearance to the LSD cover. The LSD has very tight clearances to that area and requires close attention to detail during installation. Clearances can vary from carrier to carrier and may require this modification. Please contact your local gear shop professional for installation.
2. The 2016+ Mazda MX5 **requires** shaving the LSD cover for proper clearance to the LSD itself.

General Warning

Please be aware of the potential risks and hazards when installing aftermarket products. We do not take any responsibility for any loss and/or injury that may occur when our products are modified, re-used, or installed incorrectly. Please seek a trained professional for installation of our products.
