ABOUT US

BIOHARMONIC TECHNOLOGIES IS A MUSIC PRODUCTION AND TECHNOLOGY DEVELOPMENT COMPANY FOCUSED ON OPTIMIZING HUMAN POTENTIAL USING SOUND, LIGHT, FREQUENCY AND VIBRATION. IN 2019, BIOHARMONIC TECHNOLOGIES DEVELOPED AND SHOWCASED PREMIER BIO-RESONANCE TECHNOLOGIES AT OVER 20 OF THE WORLD'S BEST EVENTS.

The founder, Dr. Steven Schwartz is a visionary technology designer, sound alchemist, and regenerative medicine expert. Dr. Schwartz is a specialist in the advanced treatment of chronic illness, allergies, autoimmune diseases and emotional imbalances. Since 2000, he has been using exclusively energetic healing techniques and technologies. He is the author of, ***Primal Resonance, Discover the Secrets to Health, Vitality and Optimal Human Performance***, This book discusses the top 10 ways to reverse aging and degeneration as well as explores the new epidemic in America, Chronic Systemic Inflammation. He is a collaborating author in a new book, ***Wake UP The Happy Brain***, which is a 2019 Amazon #1 best seller.

The foundation of Bioharmonic Technologies is rooted in questions Dr. Schwartz asked himself over his professional career: *What is inflammation? What is cellular memory? Why do most patients not find long term results when suffering from chronic illness? What is the best way to change biochemistry?*

Through 16 years of clinical experience and research Dr. Schwartz discovered that sound, light, frequency and vibration were the keys to influencing physiology at the highest level. His study of human physiology through clinical experience revealed that using these modalities creates profound change. When utilized appropriately, disease can be reversed and more importantly, optimal human potential can be activated.

OUR HISTORY

In 2000, Dr. Steven Schwartz had a profound experience that opened his eyes to the power of energy medicine and its effects on people suffering with chronic illness. Over the next seven years Dr. Schwartz extensively studied Quantum Physics, Microbiology, Esoteric Studies, and Ancient Indigenous Healing Modalities from around the world.

In 2007, he got an inspiration to start exploring different delivery systems for his energy medicine protocols. He ran an experiment in a patients recording studio where he used specific recordings to eliminate his patients severe cat allergy. The experiment was successful and that was the beginning of Bioharmonic Technologies and the first Sonic-ceutical™ album Energy Clearing was released shortly after.

In 2009, It was clear that Sonic-ceutical™ music was more than simply music, they were biofeedback devices packaged into music and needed a more specific delivery system to access the body.

In 2012, Dr. Schwartz was introduced to his first mentor Ed Bender who was manufacturing “Vibroacoustic Sound Lounges”. Dr. Schwartz began selling for him and produced three albums: *Cell Cleanser*, *Spectrum*, and *Transformation & Abundance* .

After Ed Bender's passing in 2014, Dr. Schwartz began manufacturing his own Vibrational Technology with *Holistic Health Science*, a company he founded in 2016. After leaving HHS in August 2018, Bioharmonic Technologies was rebranded and the **V.I.B.E.S (Vibrational Individualized Body Enhancement Systems)™** were born on New Years eve December 31st 2018.
