

7 Benefits of Managed Print Services your Boss Wants to Know

Cost Management

Create a manageable, strategic fleet that fits the needs of your business. Monthly visibility into cost removes surprises and allows for a consistent budget for you.

Security

Printers are another open port into your company - often unprotected. Make sure your documents and business is secure with the best protection available.

IT relief

Your IT and help desk staff are a valuable resource. Keep them on track and out of a printer.

Mobile

Many employees are on the road today. Make sure they aren't held back by not being able to print.

Workflows

Speed up your employees with workflows that plug into your business functions.

Consolidation

Are you paying for more than you need? A print assessment will confirm the right number of devices in the right places to drive down on cost and print burden.

Fleet Monitoring

Keep an eye on your imaging devices and make sure only approved print jobs are being completed. The use of rules to drive down cost and the ability to do departmental bill back.
