

Recip Saw Reinvented

Universal Connector System

Sell More Than Blades
File, Scrape, Brush, Scour, Scrub, Sand and More!

Universal Connector System
RECIPROTOOLS[®]

Do More with your Recip Saw

More power!

Utilizing a push/pull motion, reciprocating saws are extremely powerful and efficient cutting tools for construction and demolition work.

More versatility!

With the ReciproTools multi-tool system, now transform your recip saw for faster and easier filing, scraping, brushing, scouring and scrubbing.

More uses!

Secure the universal quick-connect adapter just like a standard saw blade. Then lock in a ReciproTools accessory to:

- Remove tile, grout, linoleum, rubber backed carpet and pad
- File wood, metal and plastics
- Deburr metal and steel pipe
- Brush and scrape loose paint
- Remove rust and corrosion
- Scrub carpet, floor mats, tires and more
- Clean tile, linoleum, fiberglass, concrete, brick, siding and most all hard surfaces

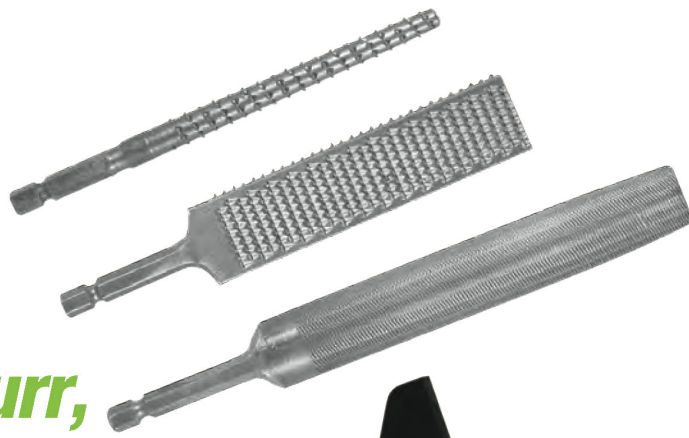

More performance!

An innovative multi-tool attachment system that allows six-position accessory rotation for the most convenient, secure recip saw handling and grip.

Get tough jobs done faster and easier with more power and performance.

File,
Deburr,
Scrape,

Universal adapter locks in just like a recip saw blade

Quick-change hex shank allows six-position accessory rotation

Heavy-duty accessories for durability and long-life

Brush,
Scrub,
Scour,
Sand
and more!

Universal Quick-Change Adapter – Item #: RCT-A10

- Expands reciprocating saw uses for: scraping, brushing, scouring, scrubbing, filing, deburring and more
- Heavy-duty connector adapts to accept all 1/4 in. quick-change hex shank accessories
- Allows for versatile 6-position tool rotation
- Fast and easy tool changes
- Universal tang works with all reciprocating saw brands

Replacement Tang Kit – Item #: RCT-RPL-10

- Designed for easy, low-cost tang replacement
- Kit includes: tang, collar and mounting set screw

Metal File – Half Round – Item #: RCT-HRM-10

- Half round metal file
- Flat and radius sides for filing, deburring, sharpening and cleaning
- American Pattern
- Bastard/Double Cut
- Size: 5 in. x 3/4 in.

Wood Rasp – 2-in-1 Combination Coarse and Fine

Item #: RCT-FRW-10

- Four working sides: 3/4 in. and 3/16 in.
- For filing and shaping wood, removing excess material, adjust sticky doors/gates, etc.
- American Pattern
- Bastard/Double Cut
- Size: 3 1/4 in. x 3/4 in.

Rattail Rasp – Wood & Composite – Item #: RCT-RTW-10

- Enlarge, elongate and oval shape holes
- Works on wood, plastic, carbon fiber, fiberglass and more
- Size: 3 1/2 in. x 1/4 in.

Rattail File – Metal – Item #: RCT-RTM-10

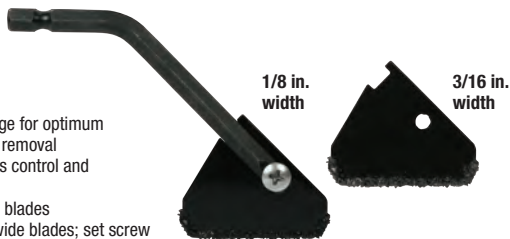

- Enlarge/elongate holes, deburr metal and pipes, and sharpen tools
- Size: 3 1/2 in. x 1/4 in.

New

Grout Remover

Item #: RCT-2PC-GRT

- Durable carbide grit cutting edge for optimum performance and fast material removal
- Heavy duty hex shank improves control and reduces vibration
- Interchangeable, secure locking blades
- Includes: 1/8 in. and 3/16 in. wide blades; set screw

1/8 in. width

3/16 in. width

New

Detail Scraper – 2 in.

Item #: RCT-DSCR-02

- General purpose scraping and surface prep
- Scrape and remove: paint, wallpaper, adhesives and more
- Blade size: 2 in. width

New

Scraper – 4 in.

Item #: RCT-SCR-04

- General purpose scraping
- Scrape and remove: tile, thin-set, rubber-back carpet, linoleum, laminate flooring, paint, wallpaper, glue and more
- Blade size: 4 in. width

Cleaning/Scour Pad – Offset – Item #: RCT-CLN-10

◀ Offset design lifts recip saw and handle away from work surface

- Thick, heavy-duty pad
- Clean grill racking, polish stainless steel, remove paint; general cleaning for hard material surfaces: wood, siding, concrete, brick, tile, stone, steel and more
- Size: 5 in. x 3 1/2 in.
- Pad height: 3/4 in.

Nylon Brush – Offset – Item #: RCT-N10-0B

◀ Offset design lifts recip saw and handle away from work surface

- General surface cleaning
- Remove loose paint, surface stains, soap scum, mildew, hard water deposits
- Works on: wood, metal/steel, concrete, masonry, stone, tile, grout, fiberglass, floor mats and most all hard surface materials
- Size: 4 1/4 in. x 3/4 in.
- Bristle length: 3/4 in.

Nylon Scrub Brush – Offset – Item #: RCT-SCB-10

◀ Offset design lifts recip saw and handle away from work surface

- General surface scrubbing and cleaning
- Scrub stains in pools, tubs, spas
- Remove loose paint, surface stains, soap scum, mildew, hard water deposits
- Works on: wood, metal/steel, concrete, masonry, stone, tile, grout, fiberglass, floor mats, carpeting and more
- Size: 4 in. x 3 in.
- Bristle length: 1 1/8 in.

Stainless Steel Wire Brush – Item #: RCT-ST10-B

- General surface cleaning; preparation for painting and welding
- Remove loose paint, surface stains, rust and hard water deposits
- Works on: wood, metal/steel, concrete, masonry, stone and many other hard surfaces
- Quick-change 1/4 in. hex shank for adaptor compatibility
- Size: 4 1/4 in. x 3/4 in.
- Bristle length: 3/4 in.

Stainless Steel Wire Brush – Offset – Item #: RCT-ST10-0B

◀ Offset design lifts recip saw and handle away from work surface

New Sanding Pad – Item #: RCT-SDP

◀ Offset design lifts recip saw and handle away from work surface

Top view

- For use on wood, metal, fiberglass, plastic, drywall and other sandable surfaces
- Remove paint, stain and for general surface sanding
- Accepts standard “mouse” style hook and loop sanding pads
- Sanding pad size: 3 5/8” x 4 3/4”
