Unfold the two corners and fold one sheet of the top of the triangle down to the bottom and make a crease.

4

Fold the two corners back up and tuck them in.

5

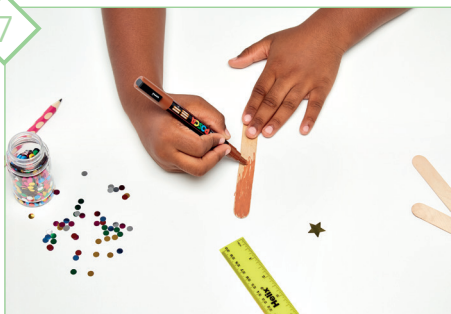

Mark with a pencil how many branches you want and cut them out with a pair of scissors.

6

Decorate your christmas tree bookmark with sequins (or anything else you like). Don't forget the star!

7

Cut your lollipop stick in half and paint it brown with a posca paint pen (see page 13) or you can use brown paint.

8

Stick your painted lollipop stick underneath your tree and you now have a new festive corner bookmark!
