

Food Reintroduction - Symptoms Tracker

Date _____

Patient Name____

Reintroduce only one new food at a time. Eat it 2-3 times in the same day, stop eating it, then wait 48 hours to see if you have a reaction. Assess your response over that time, keeping track of your symptoms below. If there is no reaction to a food, you can keep that food in your food plan and continue with the next food for reintroduction. If you are unsure whether you had a reaction, retest the same food in the same manner. If you require more space, copy the blank chart for a second page.				
	DAY 1	DAY 2	DAY 3	DAY 4
Time				
Food				
Digestion/Bowel Function				
Joint/Muscle Aches				
Headache/ Pressure				
Nasal or Chest Congestion				
Kidney/Bladder Function
