Completely Prepares Surface

Manufactured using a cotton or poly substrate, coated in a tacky resin, **MEDNIK RIVERBENDS** tack is designed to **COMPLETELY** remove loose dust particles, dirt or lint for surface preparation. Whether that be painting, coating, laminating or any other finishing. Made with a unique process & formulation, our tack cloth will not harden, dry out or darken in storage or during use. Stays soft and tacky without solvents, silicone, oils, paraffins or moisture & will not leave a chemical residue on surfaces.
