## BEDDING MUST HAVES FOR A LUXURY FEEL

1. Great Mattress | We recommend a 1st class supportive mattress with a firm core. Customize your mattress with a topper for a perfect plush feel.
2. Protection | Make sure to protect both your mattress & pillows with a high quality cotton protector. Sweat, spills, etc. can quickly take the luxury out of your dream bed.
3. Sheets | Whether you prefer cool, crisp percale or soft, silky sateen make sure to invest in quality cotton. A high quality 350TC can make you feel like royalty compared to a poorly manufactured 500TC.
4. Down Factor | Down, feather, alternative-down, wool or otherwise - your duvet & pillows will create the fluffy cloud appeal we all look for in a dream bed. Pick a duvet with a high loft for a puffy finish & a pillow according to your sleeping position.
5. Decorative | Traditional, modern, simplistic or glam - no matter your personal design style, remember to invest in key pieces that will work with passing trends. Update the look when you feel like a change with deco pillows, throws & bed scarves in a variety of colours and textures.
