

DeWitts High Performance Aluminum Radiators

Thank you for purchasing a DeWitts Aluminum Radiator. To ensure that you receive the maximum performance and longest life from your new radiator we recommend you purchase a pre-mixed coolant to insure water quality and eliminate the need for mixing.

The following brands are a few excellents choices.

Zerex G-05 – T ZEREX™ G-05™ uses Hybrid Organic Acid Technology (HOAT) chemistry which combines the best of conventional and organic acid-based chemistry to provide the ultimate protection against rust and corrosion. This Pre-mixed coolant features 50% de-mineralize water mixed with a 50% blend of vigin ethylene glycol and a hybrid organic acid corrosion inhibitor package to protect your engines from liner pitting and corrosion.

Prestone® DEX-COOL® Extended Life 50/50 Prediluted-uses Organic Acid Technology (OAT) Formulated for use in all GM® vehicles that require DEX-COOL® coolant with the featured factory-fill blend used by major auto manufacturers. This convenient, ready-to-use formula features 50% antifreeze concentrate for temperature and corrosion protection and 50% distilled water for heat transfer Dex-Cool contains a mixture of ethylene glycol inhibited with 2-ethyl hexanoic acid, sebacic acid and tolyltriazole. It contains no benzoate, nitrite, nitrate, silicate, or phosphate.

PEAK Long Life 50/50 Prediluted Antifreeze/Coolant-offers all of the same benefits in a convenient pre-diluted antifreeze with no need to add water. Its inhibitors provide maximum cooling system protection against damaging rust and corrosion. Additional benefits include an amber color that will not change the current antifreeze color when used for topping-off, and a phosphate- and silicate-free formula. It contains a Long Life coolant technology that is compatible for use in all automobiles and light-duty trucks - regardless of make, model, year or original antifreeze color.

Disposal of used antifreeze/coolant: Follow local laws and regulations. If required, dispose at facilities licensed to accept household hazardous waste. If permitted, dispose in sanitary sewer systems. Do not discard into storm sewers, septic systems or onto the ground.
