Apollo Modular System

From bookshelf, to workspace to media storage, the Apollo system is a beautiful and practical space solution.

Create a custom wall unit with multiple components and verticals.

For work or play, Apollo will shape your space in a whole new way. Create your own custom storage wall by combining multiple components between 2 or more vertical posts. Brackets and components can be installed on either side of the vertical posts, letting you expand and configure the system as needed.

Components are hand built of solid hardwoods; plantation teak or sonokeling wood, each with a clear satin finish that shows off the natural grain and color. Classic iron hardware complements the look.

Plantation Teak

Sonokeling

Vertical Posts

These vertical posts are the backbone of the Apollo system. Increase your options with multiple vertical supports for expanded storage.

2" W x 12.5" D x 90" H
Teak \$350
Sonokeling \$360

Brackets

Brackets connect each component to the vertical posts. Each component requires two brackets.

1.5" W x 8" D x 4" H
Iron \$25 ea.
