## DESK BRACKET PAIR

- Iron desk brackets are required to securely support desk tops and components over 18 in deep on Apollo System. Desk brackets allow for components to be adjusted in height in increments of one inch. One pair of desk brackets is required for each oversized component (one left and one right bracket). Brackets come with screws.

- Clear finish for indoor use.

- These brackets are specialty hardware for our Apollo Modular System and won't work for other applications.

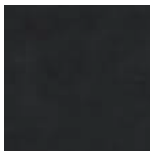

- Hand made in Central Java, Indonesia.

WIDTH: 1.6 in  
DEPTH: 15.5 in  
HEIGHT: 7.5 in

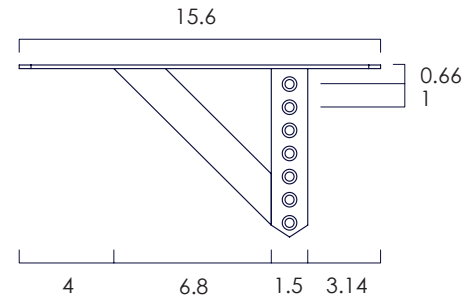

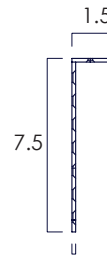

2022 Finishes:

- Clear Iron Powder Coat (RC)
