

Bawang Pendant Lamp

Design by ONG CEN KUANG
Handcrafted in Bali, Indonesia

From Rajut Series. Inspired by traditional hand knitting technique with metal from the island of Sumba, Indonesia. This technique, passed down from generation to generation, is used to make the traditional Sumbanese wedding (kantar) accessories for the bride. The shades are made in layers just like the bawang itself. The layers disperse the warm glow of the light source in two sequence.
