CIAO FILE CABINET 29 in

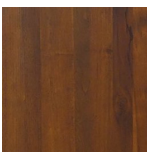

- Ciao is a series of modular storage designed for multiple applications. They have distinct beveled edges and showcase dovetail joinery. Ciao components can be used within our customizable Apollo system, stand alone or combined with other bases.
- The solid wood File Drawer with bevel at the front features a fully extendable drawer that fits standard letter sized files. It comes with preinstalled rails to hang files that are oriented left to right. The Drawer is also available in a 18 in wide version.
- The Drawer is a tipping hazard when not secured properly; if not used within our Apollo system, we recommend to attach it to the wall or another fixture.
- Clear finished for indoor use.
- All wood is sustainably sourced from local plantations. Hand made in Central Java, Indonesia.
