KALI SLAB TOP

- Kali is our signature style top; "kali" means river in Indonesian; we interpret this into our tops with live edges.
- Kali slab tops are our most luxurious option for the tabletops. They are made from one single piece of trunk as opposed to glued planks. Some slabs will feature hand made wood or brass butterfly inlays to stabilize edges. Some slabs will have artistically preserved crevices or openings.
- Each slab is unique in shape and size. Not all wood species grow large enough to produce a slab; please inquire to see our current stock.
- Clear finished for indoor use.
- All wood is sustainably sourced from local plantations. Hand made in Central Java, Indonesia.
