LANCAR SIDE TABLE

- Lancar is one of our sustainable product lines that uses reclaimed material.
- The industrial and edgy storage collection is constructed entirely from recycled oil drums. Each cabinet carry an identity of their own with traces from their previous material life in industry. The metal is cut, cleaned, and shaped by hand, some of the texture is artistically preserved to become the unique feature of Lancar storage.
- Clear finish for indoor use.
- One compartment with a swing door and one open shelf.
- More storage is available in Lancar collection.
- Hand made in Central Java, Indonesia.
