ROOT BENCH

- Our Root Benches are unique, organic and are suitable to be used outdoors. Each bench is one of a kind. We hand-select pieces of teak root shaped by nature, that inspire design and functionality. Legs are added from the teak trunks.
- Due to product's natural variations, dimensions are approximate; seat height is standard. Image is for reference only.
- When left outdoor, the surface will acquire elegant grey patina unless refinished occasionally.
- All wood is sustainably sourced from local plantations. Hand made in Central Java, Indonesia

WIDTH: 20 -100 in
DEPTH: varies
SEAT HEIGHT: 18 in

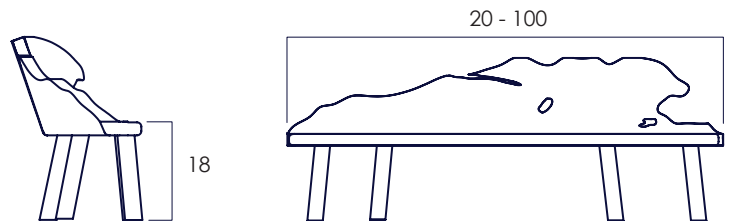

2022 Finishes:

- Teak Root, Clear matte Oil (TA)
