STARFISH
SLAB ROOT OCCASIONAL TOP
SMALL - XXL

- Starfish has a catchy shape that is unique to a specific teak root area. We hand select then slice and shape them to create one of a kind tops. No two tops are alike and each one is a true centerpiece.
- Tops are suitable for side tables, coffee tables or can be made into wall art. Single legs like Corvus are recommended.
- All wood is sustainably sourced from local plantations. Hand made in Central Java, Indonesia.
