The company

Elina Pilates is the manufacturer of some of the best Pilates equipment currently on the international market.

Our products are designed to contribute the safety and comfort required for the Pilates practice.

Our equipment is robust, elegant and of great durability. A great number of professionals worldwide have worked and contributed their knowledge to the design and functionality of our equipment.

We use the best materials and continuous quality control in all manufacturing processes. This does not prevent us from offering the best prices of any high quality Pilates equipment on the market.

Born in Europe, Elina products are now present all over the world.

It is a unique machine that is characterized by its versatility, being also an excellent option for those who need to take advantage of space.

5 MACHINES IN ONE
Cadillac + Ped-Pull + Leaning Platform + Ballet Bar + Training in suspension

ONNE
Experience has always been a determining factor when creating innovative Pilates machines and, in the development of the ONNE Wall Board, it has been more important than ever. The combination of the experience of the well-known Pilates trainer Eva Espuelas and the know-how in the manufacture of Elina Pilates have resulted in a new machine capable of satisfying the needs of the most demanding. Versatility, elegant design, dimensions, adaptability and ease of use are just some of the features that can define this unique 100% Spanish manufacturing product.

Revolutionizing the concept of the traditional Wall Board, the use of space offered by ONNE allows Pilates machines to carry out the work of larger groups, as well as incorporating new elements that multiply the functionalities of its use, offering the user the possibility to enjoy 5 machines in one.

In addition to its careful aesthetics and systems of adaptability to the specific measures of each person and training, ONNE is a unique machine that incorporates performance for the work of different machines such as the Cadillac, PED-PULL, leaning platform, ballet bar and training in suspension, obtaining with all of them an exceptional performance, since all the training components are worked on.
WALL BOARD ONNE

Among the new elements that it incorporates, they are outlined:

LEANING PLATFORM:
maximizes results because it provides the realization of exercises in this plane making them more complex depending on the degree of inclination to be exploited, getting adaptations that can’t be developed in the ground. This platform is easy to store and clean, and its anti-slip mat can be putted and removed simply.

BAR OF BALLET:
cylindrical piece of wood that allows making muscle-building exercises and helps to the correct placement of posture.

BELT:
element that can be used to perform work in suspension. The ONNE Wall Board, manufactured with the best materials and the characteristic quality of Elina Pilate’s products, is a solution that saves space, providing the user with the possibility of performing countless exercises on a single machine.

Manufactured in wood and aluminum, ONNE is fully adjustable and ready to be anchored on the wall. It includes:

Characteristics

- Wall Board.
- Wooden mat table with anti-slip mat and adjustable support.
- Ballet bar adjustable in height.
- Roll-down bar.
- Adjustable Push bar.
- Adjustable Ped-Pull.
- Hanger for springs and accessories.
- Adjustable height spring grip.
- Complete Set of springs (2 light lengths + 2 medium shorts + 2 small ones).
- Complete Set of grips (handles and padded handles).
- Adjustable clamping strap.

Measures

68,5 cm x 181,5 cm x 16,5 cm.

ELN 300021
BASIC: without ballet bar and without mat table.

ELN 300022
FULL EQUIP: with ballet bar and mat table.
Elina Pilates’ Wall Units are one of the most requested products by the classic Pilates studios. Manufactured with high quality and durability materials. Covered with special leather for Pilates. Structure of reinforced wood, very resistant. Anti-slip, ecofriendly materials. High density Eva filling. Very comfortable. Wall Unit Pilates is the ideal machine for the practice of Pilates in places where we have little space.
