CELL RENEWALL
MULTI-ACID CELLULAR RENEWAL

Ref: 10111

DESCRIPTION

Chemical facial renewal peel, a mixture of alpha-hydroxy acids (Glycolic, Lactic, Tartaric and Citric). Improves the skin's general topography, establishing cell renewal mechanisms in the surface layers of the skin, reducing wrinkles and expression lines. Clarifying effect. Suitable for all skin types.

ACTIONS

- Keratolytic
- Exfoliating
- Rejuvenating
- Depigmenting
- Purifying

ACTIVE INGREDIENTS

GLYCOLIC ACID (Glycolic Acid): Mainly extracted from sugar cane. It penetrates deeply due its low molecular weight, working on one of the major problems of ageing, the slowing of the metabolism. Stimulates collagen production. Provides a depigmenting effect as it able to destroy the ties that bind the proteins involved in melanogenesis.

LACTIC ACID (Lactic Acid): It is extracted from dairy fermentation. It is an acid that penetrates slowly. Gets rid of dead cells, bringing brightness and strengthening the skin's hydrolipidic barrier.

CITRIC ACID (Citric Acid): It is characterised by its astringent, exfoliating and regenerative properties. Improves the size of pores by eliminating accumulated dead skin cells which cause the pores to have that dilated effect. It also preserves the balance in the surface layers of the skin.

TARTARIC ACID (Tartaric Acid): It is mainly extracted from the fermentation of grapes. It increases acidity and regulates the pH, and by doing so it acts on the bacterial activity that is found on the surface layers of the epidermis. It has a powerful lightening effect, so it is especially effective at getting rid of blemishes and acne scars.

COMPOSITION

AQUA, GLYCOLIC ACID, LACTIC ACID, CITRIC ACID, TARTARIC ACID, HYDROXYETHYLCELLULOSE, GLYCERIN, TETRASODIUM GLUTAMATE DIACETATE, CI 14720, CI 19140, BENZOPHENONE-4, SODIUM HYDROXIDE, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, PARFUM, LIMONENE, GERANIOL, LINALOOL.

Ref: 10174

DESCRIPTION

Alginate facial mask rich in Vitamin C which reduces the signs of cellular ageing, neutralising the effects of free radicals and restoring the skin's radiance and tone.

ACTIONS

- Firming
- Antioxidant
- Restructuring

ACTIVE INGREDIENTS

ALGINATES (*Algin*): Made from seaweed which is rich in proteins, mineral salts, trace elements and vitamins. Thanks to its gelling properties when coming into contact with water, it produces an osmotic effect that allows optimal penetration for its own active ingredients or those previously applied.

GUAR GUM (*Cyamopsis Tetragonoloba*): An active ingredient derived from plants; it is rich in polysaccharides which boosts the tensor effect. It complements the gelling of the alginates, preventing surface dehydration.

ACEROLA EXTRACT (*Malpighia Punicifolia Fruit Extract*): Fruit with high Vitamin C content (up to 30 times more than that of an orange) with great antioxidant properties. Neutralises free radicals responsible for cellular deterioration, preserving and slowing down the ageing process. Thanks to the Alginates' occlusive effect, it has better saturation and effect on the skin.

COMPOSITION

DIATOMACEOUS EARTH, ALGIN, CALCIUM SULFATE, TETRASODIUM PYROPHOSPHATE, CYAMOPSIS TETRAGONOLOBA, SODIUM ERYTHORBATE, MALPIGHIA PUNICIFOLIA FRUIT EXTRACT, CI 77491, MALTODEXTRINE.

DIRECTIONS FOR USE

In a bowl prepare 30g of powder product with 30ml of mineral water and mix until it makes an even and lump-free paste. Immediately apply a thick layer on the face and neck using a spatula. Leave it on for 15-20 minutes. Remove in one piece.

To apply the mask on the neckline as well, add an additional an extra 30g of powder with an extra 30ml of mineral water.
