Por las características de estos procesos peeling, es obligatoria la prescripción de un tratamiento cíclico en casa para optimizar los resultados. Tras las sesiones, se establece un programa en dos pasos que actúa sinérgicamente.

Due to the characteristics of these peeling processes, the prescription of a cyclic treatment at home is compulsory in order to optimise results. After the sessions, a two-step programme is set up that acts synergetically.

DESCRIPTION

Facial serum highly concentrated in regenerative ingredients for a quick and spectacular recovery of the skin after peeling processes. It incorporates Epidermal Growth Factor (EGF) that stimulates and accelerates the new epithelization of damaged layers. It stimulates the formation of collagen, elastin and glycosaminoglycans (GAG's).

ACTIONS

- Regenerating
- Anti-aging
- Firming
- Soothing
- Moisturizing (in depth)
- Nutritious
- Clarifying

ACTIVE INGREDIENTS

LACTOKINE™: Incentivises the skin's protection system and helps it to recover. Reduces irritation and inflammation. Regenerates old and stressed cells. Increases cell vitality at an epidermal level.

PHYTOCELLTEC™ ARGAN: Revitalises and protects the stem cells of the dermis. Thickens and firms the skin. Rejuvenates the cells.

ARGILEROX®: A peptide which reduces expression lines and wrinkles, controlling and reducing the instinctive movements that often cause them. Boosts the anti-wrinkle action with long-lasting effect.

EPITENSIVE™ (PLANT-EGF): This is a growth factor from vegetable origin. It stimulates keratinocyte and fibroblast proliferation and migration, increases the synthesis of collagen, elastin and other proteins of the extracellular matrix, accelerating the process of epithelium replenishment and skin repair. It also reduces the melanin production.
