

## Ring Sizing Guide

Please use the sizing guide below to assist you in choosing the right size for yourself or for a loved one. For questions about our return policy please visit the Shop Policies page of our website.

**For accuracy, please ensure PDF is printed at 100%.**

The sizes indicated are specific to Chikahisa Studio jewelry only and should not be used as a universal sizing chart.

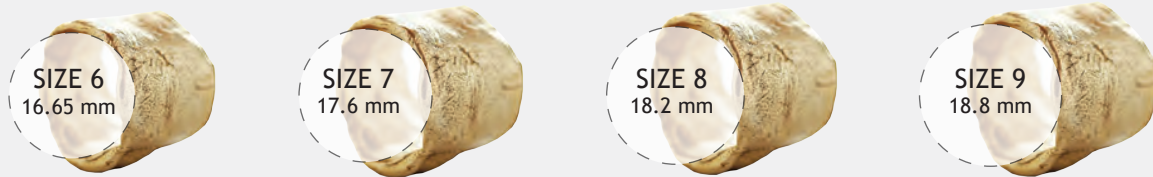

### Ring Size Reference

The guide below can be used to determine a ring size based off of an existing ring. Place ring on top of guide circles and take note of which dotted line circle perfectly fits the inside of your ring.

If you are using this guide to determine a size for a loved one, be sure the ring you are measuring is one they currently wear on the finger you are shopping for.

Ring images are designed to offer sizing guidelines and width approximation. They are not intended as actual renderings of available rings, as all are handcrafted and unique.

### Measuring Guide

To measure your ring size with the guide below follow these instructions

- Print and fold paper along dotted line and cut out ring shape.
- While still folded cut a slit on the line labeled “Your Size”.
- Slip pointed end through slit creating a circle.
- Place around your finger and pull the pointed end to create a snug fit.
- Your ring size will be determined by the numbered line located closest to the slit.

This guide can also be used for the string test.

- Cut a small piece of string, or thread.
- Wrap snugly around your finger.
- Compare your measurement with the guide below.
- Align your string starting at the “Your Size” slit, and pull to the right to determine ring size.
