2. USB Charging Port – Output DC 5V – 1A(MAX)
3. LED Light – Charge Indicator
4. USB Charging Cable

INSTRUCTIONS FOR USE

Charging your portable Power Bank

- Please use the cable that is included in your pack. Connect the Micro USB cable to the Micro USB charging port (Input DC plug) as shown in the above figure. The other end should be connected to a USB wall adapter, or any other USB source.
- While charging the Power Bank, the RED LED light will illuminate, once it is fully charged, the LED light will turn blue. This indicates that your Power Bank is fully charged.

NOTE: Before using the product for the first time, please charge the Power Bank for at least 2.5 hours or until the Blue LED is turned on.

Charging your Smart Module or your smartphone

- Please ensure that the portable Power Bank is fully charged.

- Please use the USB charging cable. Connect one end to the USB charging port (Output DC plug) and the other end into the Smart Module charging port or your smartphone.

Care and maintenance

Read the following recommendations before using the portable Power Bank:

- Do not expose the battery to liquid, moisture or humidity. This may affect product's internal circuit.
- Do not use abrasive cleaning solvents to clean the device.
- Do not expose the device to extremely high or low temperature as it may destroy the battery or distort certain plastic parts.
- Do not expose the device to fire as it may result in an explosion.
- Do not let the device fall on the floor. The Internal circuit might get damaged.
- Do not attempt to disassemble the device as it may cause damage.
