FEATURES & BENEFITS

Walnut Melody

Discover the perfect blend of modern design and acoustic performance with our Walnut Slatwood Melody Acoustic Slat Panels.

Versatile & Modern	Slatwood acoustic panels offer authentic beauty in a modern format. The real wood slats and rhythmic pattern compliments any design style, providing endless possibilities for transforming spaces.
Made In the USA	Our panels are made in our Michigan factory from high-quality materials that are intelligently sourced. Don't be fooled by cheap imports, you won't find a higher quality acoustic slat panel than Slatwood.
Quality Real Wood & MDF Core	Our premium European Walnut veneer slats are dry brushed to accentuate the wood grain. The veneer we use is furniture-grade, meaning it's thicker than our competitors' cheap imports, and your wood will look better and be more durable.
Quick, Easy Installation	The lightweight panels are easy to install using screws or adhesives. Cutting and installation create very little mess and require only basic tools. This makes them perfect for use in both occupied remodels and new construction. A typical feature wall takes less than a day to create.
Sustainable, Eco-Smart	If you care about the environment, you should buy Slatwood. Most of the panels sold today are cheap imports. Our panels are made in the USA using certified sustainably sourced woods and acoustic felt made with recycled PET. You can be confident that our products and finishes don't contain any hazardous chemicals and that your new room truly helped to create a more sustainable world.
Healthy & Safe	We do not cover our woods in toxic plastic finishes, preferring instead to use plant based oil or natural weathered finishes that leave nothing between you and the authentic, healthy beauty of the natural wood. Use our products with confidence to creating healthy, naturally inspiring environments.
Superior Acoustic Performance	The architectural-grade black felt backing isn't just for looks—it diffuses sound and minimizes echo, creating a calmer, more pleasant environment. Perfect for spaces where both style and sound control matter.
Bonded NOT Stapled	Unlike stapled alternatives, our slats are heat-bonded to the felt, ensuring a stronger, longer-lasting product that's easy to work with. This means you can cut them without worrying about hitting dangerous staples or repairing loose slats after cuts, making your installation smooth and hassle-free.

PRODUCT SPECIFICATIONS

Walnut Melody

Details:

COMMON NAME:	European Walnut
SCIENTIFIC NAME:	Juglans Regia
CONSTRUCTION:	Furniture Grade Veneer on MDF Core
FINISH:	Unfinished (Optional European Plant Based Oil)
FLAME SPREAD RATING:	None—Class A Treatment Option Available
INSTALLATION:	Adhesive or Mechanical Fasteners
CERTIFICATIONS:	Certified Sustainable Wood

LEED Point Opportunities:

MR 5:	Regional Materials
MR 7:	Certified Wood
