Amigurumi Moths

designed by Brenna Eaves

Yarn

Worsted weight acrylic or wool. You can use any weight yarn you have.

I recommend a variegated yarn for the wings, it makes them pop!

Materials

Size G (4.00 mm) Furls Odyssey Hook

Yarn needle

Crochet thread for antennae

Stuffing

Black fabric paint

Notes

The legs are worked as part of the body of the moth, no sewing them on later!

When working in rows (for the wings), I do not chain 1 when I turn and I work directly into the first sc of the turned row. Keep that first stitch relatively loose so you don't have to sweat to get the hook through when you come back to it the next row.

If your little legs don't line up as shown below, you can easily adjust their alignment by working them one or two stitches before or after the pattern indicates. Everybody's stitches spiral differently when working in the round, if this happens to you, it's nothing to worry about!

*FO, weave in only this end, do not weave in the beginning tail!
To get distinct left and right wings, just flip one over.*

Lower
Make 2
ch 2

1. 2 sc in 2nd ch from hook, TURN (2)
2. 2 sc in 1st sc, sc in last sc, TURN (3)
3. sc in 1st sc, 2 sc in each of the last 2 sc, TURN (5)

4. sc in 1st sc, 2 sc in next sc, sc in last 3 sc, TURN (6)
5. sc dec, sc in next sc, 2 sc in next sc, sc in last 2 sc, TURN (6)
6. sc in 1st 4 sc, slp st, TURN (5)
7. skip slp st, sc in next 2 sc, 2 sc in next sc, sc in last sc, TURN (5)
8. work 7 sc across (this requires a sc in the slp st from row 6 and then a sc in the same sc as the slp st from row 6), slp st in last sc (8)

FO, weave in only this end, do not weave in the beginning tail!

Again, for specific left and right wings, just flip one over.

Using the beginning tail, sew only the tops of the lower wings to the moth body at about round 9 (see picture). They should be closer together than the upper wings.

Antennae

Make 2

With crochet thread and size 7 steel hook, ch 10

1. slp st in 2nd ch from hook, sc in next 2 ch, hdc in next ch, dc in each of the next 2 ch, tc in next 2 ch, 5 dc in last ch, turning the work upside down so you're working along the bottom of the ch, tc in next 2 ch, dc in next 2 ch, hdc in next ch, sc in next ch, slp st in next ch (same ch as 1st st).

FO and weave in this tail only!

(For easy antennae, get a scrap yarn and yarn needle, insert the needle through the underside of the moth and pull the scrap yarn through but leave a few inches sticking out)

Eyes

Using your fabric paint, dab on some eyes and allow them to dry.

And now you're done!
