Finishing

Block all pieces to measurements. Refer to the first post [HERE](#).
Sew in sleeves using a mattress stitch. Video tutorial [HERE](#).

Here are some tips to seaming in the sleeves:

Open up the last couple rows of the sleeve to fit it into the underarm of the body. This is where I like to start sewing.

Use a pin, stitch marker or safety pin to hold the top of the sleeve to the body. Use this as a guide as you work.

Stop every once and a while to see if everything is lining up right. I check every inch or so and pull more from either the sleeve or body if you need to.

Example photos for finishing can be found [HERE](#).
