

BED BUMPER

ASSEMBLING

1. Remove the mattress from the bed.
2. Place the bed bumper loosely inside the bed with the diagonal
3. strings facing downwards.
Make sure the opening of the bed bumper is placed by the first slate next to the front left corner (see drawing).

4. Tie all strings around the slates – both top and bottom.
 5. Where the two ends of the bed bumper meet, you must tie the strings from both ends around the same slate of the bed.
 6. Put the mattress back in the bed.
- NB!** Always make sure the diagonal strings of the bed bumper are placed **BELOW** the mattress.
