MODULITE[®]
Eliminates "loose parts" hazard!

LOOK AT THE BENEFITS

HYGIENIC

- Easy to wash and clean
- Stainless surface – doesn't absorb
- Chemical friendly
- Free-flowing – no water traps

COMPLIES WITH AS/NZS 1657 –

- Provides safe access to places used by operating, maintenance, inspection and servicing personnel.

NON POROUS

- Won't hold water
- Won't hold smells
- Won't rot out

MODULAR

- Simple one-piece sections
- 800mm long
- Variable width and depth*

BEST WORKING SURFACE

- Maximum grip from unique tread pattern
- Softer to stand on than solid flooring
- Sizable holes for scrap to drop through or be washed out

**Can be made to suit your application from 600-1200mm wide. Depth can be varied, min 35mm.*
