## G E T T I N G   S T A R T E D

To begin, press and hold the power button. The speaker will begin pairing, and the LED will blink blue. Select “LSTN Anthem” from your device’s Bluetooth settings. You’ll hear a confirmation, and then you’re ready to begin enjoying your speaker.

To disconnect your Anthem and pair with a new device, hold down the play button for approximately 5 seconds.

Power On / Off

Reduce volume / Previous track

Increase volume / Skip track

Mode / Pairing / TWS

Play / Pause / Answer / End call

## O P E R A T I O N

Tap the volume buttons to raise and lower the volume. Hold to skip / reverse track

Press the phone button (📞) to answer and end phone calls. Hold to reject an incoming call.

While using a 3.5mm auxiliary cable, press and hold the phone (📞) button to switch to Bluetooth mode.

## M I C R O S D P L A Y B A C K

The Anthem supports music playback from a microSD (also known as TF) memory card. The speaker will automatically switch modes when a microSD card is inserted. Note that the speakerphone and wireless functions are not available while in microSD playback mode.

Playback and volume functionality remains while in microSD playback mode.

**If you're having trouble connecting:** Turning your device's Bluetooth off and then back on helps. You should also turn off your Anthem and restart the pairing process.

**If your connection is spotty or keeps dropping:** Bluetooth works best with a direct line-of-sight. Try repositioning your device in relation to your speaker to improve the connection.

**If your Anthem won't charge:** Your cable may not be working right. Try a new USB cable, and turn the case off, then on again.

Still can't get it working? Let us know by writing

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ Reorient or relocate the receiving antenna.

- ▶ Increase the separation between the equipment and receiver.
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- ▶ Consult the dealer or an experienced radio/TV technician for help.

## **Caution**

There is a risk of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type, and do not attempt to replace the battery yourself.

Do not expose the battery to excessive heat, including direct sunlight, fires, and the like.
